This donation was acknowledged by me, and a draft drawn in favor of Bro. Bruns for the amount on Bro. Williamson, Grand Treasurer of that Lodge, and paid by him to your Grand Treasurer. I suggest that some action be taken by you in acknowledgement of cur fraternal appreciation of this generous donation, and that the correspondence between M. W. Bro. Lucius H. Not being present at your last annual communication in Columbia, you authorized my installation as Grand Master by M. W. Brother B. Rush Campbell, Past Grand Master, in any subordinate lodge, and at as early a period as suited our convenience.

No convenient occasion arose, and after waiting until the first Monday in February, and finding that the accumulating business required the qualification of the Grand Master, I was on that day installed by M. W. Brother A. T. C. Fierson, Past Grand Master of the Grand Lodge of Minnesota, in Solomon's Lodge No I, in this city.

This ceremony was attended by brethren representing nearly every State in the Union—conducted by a worthy brother residing in the far West, and representing a people who, only, a few brief months before, were arrayed in arms against our people, but who, as soon as the obligations and allegiance of the belligerents to their respective Governments permitted, united on a common altar, and buried the animosities of the past in a bottomless pit of oblivion. No sooner was peace proclaimed, than our fraternal relations were re-established, and the harmony of our temple reconstructed without question, conditions or amendments. The charity of Christian churches has not yet been equal to obliterating the bitter dissensions in the past, and yet our brotherhood is firmly—gloriously—re-established. Such is Massonry! May we prove worthy exemplars of an institution which teaches such thores as generously dispel all hate and malice against a brother.

There have been some signal illustrations of the complete restoration of fraternal relations in every section of the time.

respectfully recommend that the whole sum be appropriated for their benefit.

I regret to say to you that the Grand Lecturer of this State, Brother Mackey, has communicated to me his purpose of resigning that posision, on account of his inability, from official engagements in the city, to visit the country Lodges in the prosecution of his valuable and much valued labors. His contributions to the Lodges in oral instruction, to the literature of Masonry—in expounding the rites, ceremonies, ordinances, usages and traditions—in the numerous volumes he has published, places the fraternity under the deepest obligations to him, who has for more than

FEVERS, CHILLS, AGUE, &C .-The cause of fever is the contamination of the blood by some morbitic agent. The nerves connected with nutrition and organic contractility suffer alteration in their composition. The muscles, deprived of nervous influence, begin to waste, and this waste produces heat. The heart is increased in its action, and the blood is rendered still more impure by receiving the THE above reward is offered for the arrest of TOLAND R. BASS, who, on Friday last, in the city of Columbia, murdered my wife, Mrs. Mary E. Hamberg, while standing in her own doer-way.

Said Bass is 22 or 23 years old, five feet five or six inches high; weights 175 or 180 pounds; is stoutly built; has a broad face, dark hair and eyes, slight hitch in his walk, speaks quickly and rather loud, and may be more perfectly identified by the scar of a pistol skot, which may be seen on the back of his left hand.

The above reward will be paid on the presentation of the proper vouchers that the said Bass is lodged in any jail in the United States. CHARLES HAMBERG.

AT HAND:-This has been a sickly season. The medical faculty prophecy evil in the future. They think pestilence is on the wing for America. Suppose this to be true, what is the best defence against it? Redoubled nervous vigor. This is the only protection against panic, as well as against the principle of infection. Why do not those who predict the epidemic propose an adequate preventive? There is one-a GROCERIES, LIQUORS, &C., &C., adequate preventive. Incident to tomic, nervine and alterative, competent to shield the system against the subtle elements of disease, whether they float hither on the winds from distant lands, or rise like vapor from our own soil, or are incorporated with the universal fluid. This one preventive, of which there is no duplicate among the compounds, either of the Old World or the New, is HOSTETTER'S STO-MACH BITTERS.

MACH BITTERS.

Remember that it is a specific for all the complaints which lay the system open to visitations of deadly epidemics. If you are dyspeptic, it renews the vigor of your digestive powers, gives you appetite and restores your cheerfulness. If you are nervous, it invigorates every fibre of your nervous system, from the base of the brain, where it begins, to the extremities, where it terminates. If you are bilious, it disciplines your unruly liver and brings the action of that organ into harmony with the laws of health. It is, in short, an invigorant and alterative so powerful that nature, with Hostetter's Bitters for her ally, may bid defiance alike to native malaria and foreign infection. If this enemy we hear of—this disease which is desolating Europe—is really bound hitherward, it behooves the prudent to put on their armor, to clothe themselves with invulnerability as far as human means will permit, by preparing the system for resistance with bits. as far as human means will permit, by pre-paring the system for resistance with this pure vegetable antidote.
